PROFESSIONAL SUMMARY

Third-year Information Science Engineering student with hands-on experience in full-stack development, data analysis, and ML/AI tooling. 4× hackathon award winner in 2024–25, including two national-level recognitions and a ₹5,000 Best Project cash prize. Strong foundation in Python, Java, OOP, data structures, and SQL; familiar with Power BI, Tableau, and Generative AI workflows. Seeking Software Engineering or Data Science internship opportunities to apply analytical and development skills at scale.

TECHNICAL SKILLS

Languages: Python, Java, C/C++, JavaScript, HTML/CSS
Frameworks & Tools: Node.js, OSMnx, NetworkX, Folium, JUnit, Socket Programming
Data & BI: MySQL, Power BI, Tableau, MS Excel, Pandas (familiar)
AI / ML: Generative AI, Prompt Engineering, LLM APIs
Core CS: OOP, DBMS, Data Structures & Algorithms, Multithreading, Graph Algorithms
Dev Practices: Unit Testing, Exception Handling, REST APIs, Git/GitHub

INTERNSHIP / EXPERIENCE

Java Development Intern | *ShadowFox* 2024
Full Stack Web Development | *Prodigy Infotech* 2026

PROJECTS

VTU Buddy – AI Powered Student Platform | Next.js • React • TypeScript • Supabase • PostgreSQL

- ▶ Built an AI-powered academic platform for VTU students featuring study materials, previous-year question papers, AI assistance, and resource management.
- ▶ Developed responsive frontend components and integrated backend APIs with Supabase for secure data storage and retrieval..

Energy-Aware EV Route Optimizer | Python • OSMnx • NetworkX • Graph Algorithms • Folium

- ▶ Designed an intelligent route optimization system using real-world road networks and graph algorithms to compute energy-efficient EV route.
- ▶ Applied graph theory concepts including weighted shortest-path algorithms for optimization.
- ▶ Integrated elevation APIs with custom energy-consumption models to generate slope-aware path recommendations and improve route efficiency.

EDUCATION

B.E. in Information Science Engineering | *HKBKCE, Bangalore* 2023 – 2027 (Expected)
CGPA: 7.8 / 10

PCMC (Pre-University) | *MGM PU College, Udupi* 2021 – 2023
Score: 89%

ACHIEVEMENTS & HACKATHONS

 **Runner-Up** — *National Level Hackathon, KNSIT* | 2026

- ▶ Secured 2nd place among national-level competitors by delivering a fully functional prototype under a strict time constraint, demonstrating rapid problem-solving and end-to-end development skills.

 Best Project Award • ₹5,000 Cash Prize — *Full Stack Face-Off* | 2026

- Won Best Project out of all competing teams by building a full-stack application judged on code quality, UI/UX design, and real-world feasibility; awarded ₹5,000 cash prize.

 Future Innovation Excellence Award — *National Level Hackathon* | 2026

- Recognized for outstanding innovation at a national-level hackathon, with the project selected for excellence in forward-thinking design and scalable technical implementation.

 Best Student with a Vision Award — *Brainovision 24-Hour Hackathon* | 2024

- Built a full-stack agri-commerce web platform in 24 hours enabling farmers to sell produce directly to consumers, eliminating middlemen and targeting 15--20% improvement in farmer revenue margin.

CERTIFICATIONS

Microsoft Power BI • Generative AI • IoT & its Applications • Advanced Java • Python Libraries for Data Science
